

Designation:

CAMAPUR DYNEEMA®

Article no.:

620

Specifications:

Colour:	Grey	Material:	Dyneema®, polyurethane (PU)	Length:	240 mm ± 20
Thickness:	1,2 ± 0,1	Description:	Seamless liner, knit wrist, palm coated	Size:	06 07 08 09 10 11
Packing unit:	100 pairs				

Physical data:

According to EN388: **CAT II**

Abrasion resistance : **4**
 Cut resistance : **3**
 Tear resistance : **4**
 Puncture resistance : **2**
 Dexterity (according to EN420) : **5**

Description:

Camapur® Dyneema is a protective glove coated with polyurethane of category II according to EN 388. The Dyneema® liner allows an extremely good mechanical resistance despite the thin coating and at the same time it offers a good sensitivity. The glove persuades by its elegant fit. The PU coating lends the product a very good grip – even when handling wet, slippery parts. The Camapur® Dyneema can be compared with the Camapur® Comfort regarding wearing comfort and workmanship; however, it offers much better mechanical resistance and therefore the high durability (4342 according to EN 388). The glove's size can be recognised by different colours at the knit wrist.

Application:

- assembly works with medium cut risks
 - metal sheet processing
 - processing of synthetic material profiles
