

Certificate of Conformity

For Manual Sampler for Bulk Goods

TUBUS

Article number 5382-040 & 5382-080

We certify that the material used for production of this equipment is only stainless steel AISI 316 for the tube, and virgin PP for the handle. The supplier warrants that the products are new, unused and made of the best materials with first class workmanship.

The supplier has implemented and maintains a quality assurance system according to the standards of DIN EN ISO 9001.

Yours faithfully

Lörrach, 16th of April 2007

A handwritten signature in black ink, appearing to read "Frank Traunwieser". The signature is stylized and cursive.
