

Bilsom[®] PerCap[®]

***The 3-position ear plug
with foldable headband.***

Bilsom[®]

Bilsom® PerCap® is comfortable, readily available and gives sufficient attenuation in most situations.

The Bilsom® PerCap® is the perfect solution for people working in different places who sometimes need hearing protection. PerCap can be worn in three different positions; over the head, under the chin or behind the neck. The different possibilities to wear the headband ensure that PerCap does not interfere with other personal protection, e.g. helmets, spectacles, visors or respiratory protection. The foldable construction makes PerCap easy to put on, take off and to keep available when not in use. Just fold it and put it in your pocket, or hang it around your neck.

The Bilsom® PerCap® weighs as little as 10 grams. It is not inserted into the ear canal so PerCap is appreciated by people that have difficulties using normal ear plugs. Since PerCap does not contain any

The major benefits:

- **Foldable headband** Easy to keep in a pocket when not in use. Reduces loss.
- **3-position headband** Can be worn in different positions: under-the-chin, over-the-head, behind-the-neck so that it does not interfere with other safety equipment or hair.
- **Specially shaped headband** Adapts to various shapes and sizes of head to give a better fit and greater comfort.
- **Swivel attachment of pods** Adapts to different angles between the headband and the entrance to the ear canal, and ensures a proper fit irrespective of wearing position.
- **Hygienic pods** No need to roll the pods so there is little risk of transferring dirt into the ear canal.
- **Replaceable pods** Good hygiene.
- **Lightweight** Perfect comfort even when used for long periods.
- **Dielectric** Suitable for use by electricians.

metal parts it is also suitable for work in high voltage environments.

The ear plugs used on PerCap are manufactured from a soft, non-PVC foam material. The plugs seal effectively towards the ear canal. Both the foam pods and the headband can easily be washed with mild soap. The ear plugs are easily exchangeable. With Bilsom PerCap it is always easy to have a hygienic and well attenuating hearing protector available when needed!

PerCap can be carried under the chin, over the head or behind the neck. When the hearing protector is not needed, it can be carried around the neck. When folded, PerCap is so small that it easily fits into a breast pocket.

Bilsom PerCap is easily folded when not in use. The special hinges become stronger the more they are bent.
