

PE safety spill pallet

**Item No.: 149189
149190**

1. General

The General User Manual 103041, in its current valid version, must be adhered to.

If the instructions are strictly followed in accordance with the user manual, we accept liability within the scope of our guarantee conditions.

Keep this user manual in a safe place. It is intended to be used in a practical way and should be available to the user in the place where the equipment is used.

2. Application and intended use

The containment device is to be used for the storage of water-polluting, non-flammable liquids (acids, alkalis, oils) which are being stored in mobile containers.

When storing toxic substances, TRGS 514 must be observed and adhered to.

The TRbF (technical regulations for combustible liquids) 60 (wheeled containers) are to be applied and adhered to.

The storage of flammable liquids as per R10, R11 and R12 in accordance with the regulations on hazardous substances is not permitted.

3. Technical data

Type	for 2 x 205 l drums	for 4 x 205 l drums
Dimensions W x D x H	1500 x 1100 x 440 mm	1500 x 1300 x 440 mm
Spill pallet volume	270 l	330 l
Dry weight	18 kg	20 kg
Item No.	149190	149189

4. Operation

- Set the spill pallet on the storage pallet supplied.
- Load the individual drums, or an industrial pallet with drums on it, into the spill pallet using suitable lifting aids.
- The front side of the spill pallet can be pressed down using the forklift and will then automatically spring back once the forklift has moved away.
- The pallet underneath makes it possible to transport the spill pallet using a forklift.

- Check the drums are stable and cannot fall over or fall off!

- Do not expose the plastic spill pallet to direct sunlight or other sources of heat! The spill pallet may lose stability and rigidity!
- Take the greatest care when moving over uneven ground!
- Do not use on sloping surfaces!
